

*The Poinsettia plant is not native to North America, it is from Mexico. There are legends that go with the history of the plant, but it is often used in churches to adorn worship spaces because of its bright and vibrant red which symbolizes the Passion of Christ, as well as the petals looking like a star, harkening the story of the star that led the wise men to Jesus.*

*Our Sanctuary is decorated with Poinsettias donated:*

**In Memory of:**

Loved Ones	from:
